

HUT Game Calls

Presentation game calls are a thing of beauty and function. If you can turn a pen, you can make a beautiful game call. All the parts you'll need are available in two kits, the HUT Duck or Deer Kit and a reusable Game Call Turning Kit.

Each Duck or Deer Wood Blank Kit consists of two pieces of grain-matched wood, the reed hardware necessary to make the call sound and a lanyard. We have selected a number of turning materials (see choices below) which lend themselves well, both in hardness and beauty, to game calls. The wood blanks have been drilled for you and all you need is a lathe and turning tools. In addition, Deer Call Kits include an O-Ring design that allows you to create different pitches from the same reed.

Instructions are included with each kit. Both calls turn on a standard 7mm double pen mandrel.

Duck Call Blank Kit Includes two predrilled blanks (1-1/2 x 1-1/2 x 4" and 1-1/2 x 1-1/2 x 2"); reed mechanism **3001** and lanyard **3002**. For use with HUT Reusable Game Call Turning Kit **3000**.

Deer Call Blank Kit Includes two predrilled blanks (1-1/2 x 1-1/2 x 4" and 1-1/2 x 1-1/2 x 2"); reed mechanism with expansion hose **3021** and lanyard **3002**. For use with HUT Reusable Game Call Turning Kit **3000**.
